GENESIS

We was born like animals, in situation in which we had to fight for to survive.

We grew up and built our Society step by step in this same chaotic shema of fatality, which push us into cruality each one against the other, each once that we find us again in survival situation in which the strongest survive.

But more than animals, we have the possibility to choose and to organise us for to make it nicer, and that is the human mission on the earth.

To listen to ourself, and to be this part of the divinity sleeping in ourself by using our own creativity for to built the world in the way we want it, same as what we are.

THAT IS THE CHALLENGE OF OUR SOCIETY TO TURN THE DUALITY OF OUR GENESIS INTO AN HUMANIST WORLD.

TO REPLACE
SURVIVAL PRECARIOUSNESS

A GOOD ORGANISATION

LYRICS

chorus

sorry for this big love, which couldn't find its way
the pressure from above, trying to blow us away
like inside an alcove, going on, no delay
i know one day will come, love so big shows its rays

verse 1

long time ago, depending on elements
unorganised, beings had to survive
to fight sometime, braving all the dangers
so want the power, to feel protected :
" we do anything for to don't fall under strokes "
it was the law of the strongest in this time ...
so god created the animal, so god created the animal

couplet 2

the cruelty, in which were busy
dominantes, dominated, bide could not stop the race
but none of them, until this day couldn't find
the warrior's rest, cause on their guard stay pasted :

verse 2 (*following*)

" turned towards the outside, inside they lost their mind "
such is its hell, running for to be always the first, dominante
such is its hell, serving for its own security, dominated
and god informed happiness, and god informed the misfortune

verse 3

no suffering, means to be well organised
to escape the pressure, of survival and slavery
so in a shelter, human begins to be more free
can relax it's body, for to connect to spirit
for his own comfort imagine a better world
for his happiness use its energy to built it
and god created spirituality, spirituality
and god created spirituality, spirituality, spirituality
